

G. P. 'Spiel
To Be Held
Feb. 22-27

February 22 to 27 were the dates decided upon by the executive of the Grande Prairie Curling Club at a meeting held in the rink on Wednesday night for the holding of the annual bonspiel.

A committee composed of A. Dalziel, C. Stedulinsky and J. Swidlow was appointed to look after the prizes. There will be five events, Grand Challenge, D. W. Pratt Cup, McMillan Cup, Yellowhead Cup, and Frank Donald's Cup (for visitors only).

There will be seven sheets of ice and everything possible will be done to entertain the visiting rinks.

To avoid delay, it is the wish of the draw committee that all outside rinks intending to enter the bonspiel send in their entries at the secretary, Marvin Lewis, as soon as possible.

High Sch. Hockey
Boys Defeat Town
Team By 7 to 5

The Grande Prairie High School hockey team defeated the town team in their 20-minute period on the school rink on New Year's afternoon by a score of 7 to 5.

The ice was in excellent condition and considering that the High School boys had very little practice and the town team none at all, the brand of hockey served up was very creditable.

The High School boys had the better of the going in the first period and found the net three times, while the town representatives failed to tally.

At the beginning of the second period the High School scored another goal. The town team then put everything into the game and ran in five goals before the period ended, putting them one up.

In the third the High School scored three goals while the town boys failed to count, having expended their energy in their supreme effort of the second period.

Art Scullion made a very satisfactory referee.

Town—Goal, "Beak" McNair; defense, Neil Dalziel and Ken Crumley; forwards, Rusty Black, Cecil Lewis and Jack Spicer.

High School—Goal, Roy Duffy; defense, Charles Elmer and Elmer Turner; forwards, Bill Ruse, Elmer Cunningham, Junior Aiken, Jack Edwards, Edmond Black and Francis Turner.

J. Neil Re-elected
President of G.P.
Flying Club

The majority of the members of the Grande Prairie Flying Club were present at the club's first annual meeting, held on Sunday afternoon in the working.

The meeting was opened by President J. Neil, following which Mayor Tooley was elected to the chair.

One of the principal matters on the agenda was the election of officers, which resulted as follows:

President—J. Neil.
First Vice-President—Jack Neys.
Second Vice-President—Cliff Black.
Secretary—Cliff Black.

Treasurer—Bill Byron.

In reporting on the flying training school, Mr. Neil covered largely the same ground as that which appeared in the last issue of the Tribune with regard to the cost and regulations laid down.

He drew attention to the fact that already there are eighteen applications in to take advantage of the opportunity to learn to fly.

The president referred to the handicaps under which the club had labored during the past year in constructing the field and in bringing the club up to its present status, adding that these things can be accomplished during the coming year now that the foundation is firmly laid.

A letter was read from the Air Commodore, J. A. Chandler, of the Air League of the British Empire, in which the Commodore gave advice and commented on the club's splendid efforts and achievement.

How to raise the necessary funds to complete the clubhouse which the club has in mind was discussed at some length.

The advisability of purchasing a plane from Pilot Jack Lewis to be used in giving flying instruction was considered at some length. On motion it was decided to further investigate the proposal.

Mayor Tooley informed the meeting that the town was considering the building of a hangar at the airport, which no doubt could be used by the club.

T. V. Lawlor, who was present, gave some very valuable legal advice with regard to the club incorporating and other matters.

Prior to the meeting the plane was inspected.

Hythe Jan. 22—The Hythe Athletic Association will meet at the Hythe Athletic Club in the Hythe Hall on February 4 (last Valentine's Day).

Prizes for the meet have been engaged for the occasion.

HOPE FADES AS POPE'S CONDITION BECOMES MORE SERIOUS

Practically all hope that the Pope will recover from his illness has been abandoned as the Pontiff has resigned himself to the inevitable. With his eyes closing closer to his heart, physicians do not think the 70-year-old head of the Roman Catholic Church can survive his present illness. This picture, taken at the Vatican, shows Pope Pius presiding at a meeting with his Cardinals.

Growth of School System
Reflects Development Of
The Peace River CountryClairmont To
Defend Crock
Cup Jan. 15

CLAIRMONT, Jan. 6.—The hockey season, which this year is somewhat late in starting, due to mild weather, should be put away to a good start on Friday night, January 15, when Beaver Lodge and Clairmont meet on Clairmont ice in a challenge game for the Crock Cup.

The two teams are practically evenly matched and should be in tip-top condition for the game.

According to reports reaching here the Beaver Lodge team are already in fine shape, and as the cup is at stake a battle royal is expected.

Following the game there will be a dance in the Community Hall on Saturday night. The band has been engaged for the occasion.

MONKMAN PASS HIGHWAY
ASSOCIATION MEETINGS

The Monkman Pass Highway Association will hold meetings at the following points:

Lake Saskatchewan, Monday, January 11, at 8 p.m., at the curling rink, Vainalla Centre, Tuesday, January 12, at 8 p.m.

Saskatoon, Wednesday, January 13, at 8 p.m.
Watch for posters.

Tribune Classified
Advert. Brings
Quick Results

The following illustrates the effectiveness of ads placed in The Tribune:

A typewriter was advertised for sale in the last issue of The Tribune, which was in the mails on Friday morning. On Saturday the typewriter was sold.

If you have anything for sale or you wish to purchase anything, just use the advertising columns of The Tribune and get results in the shortest possible time.

G. P. Council Make Offer For
Purchase of the Wapiti Rink;
Other Matters Dealt With

The advisability of purchasing the Wapiti Rink took up a considerable portion of the time of the town fathers at a regular meeting held on Monday night.

The following were present: Mayor Tooley, Councilors Bentley, Simpson, Swallow and Whelan.

The discussion of the rink was opened when the Mayor reported that C. Spencer and H. Shaver had given in their report as to the value of the Wapiti Rink building. The price suggested was \$15,000.

Councillor Simpson moved that this offer be made to Mr. Donald for the building, which he stated it was and Mr. Donald to collect the rent from the Curling Club for the balance of the season. The motion carried.

The question of the town purchasing the rink grew out of a request made at the last meeting by a delegation from the Grande Prairie Athletic Association, who requested that no provision had been made for skating or hockey, a condition which was accepted.

If the town purchases the rink the necessary repairs will be made directly following the completion of the work.

The following accounts were passed for payment: General, \$274.14; Jan. 1, \$10.00; Jan. 2, \$10.00; Jan. 3, \$10.00; Jan. 4, \$10.00; Jan. 5, \$10.00; Jan. 6, \$10.00; Jan. 7, \$10.00; Jan. 8, \$10.00; Suggested Principles For a Set
Up In New Financial System

EDMONTON, Jan. 6.—A new financial system for Alberta, which would apply for the first time anywhere in the world the sound credit theories of David Ricardo, has been recommended by the Alberta government.

The special credit planning committee, which Premier Abernethy appointed three weeks ago, has laid down eleven guiding principles which it has effected by legislation, would be unique anywhere in the world. The report is being considered by the Premier and his cabinet, who so far have arrived at no decision on its acceptability.

The eleven principles enumerated in the report were as follows:

1. The issue of Alberta half-free money which would be negotiable within the province.
2. Establishment of a central credit house in Edmonton with branches throughout the province. To function in some respects as the ordinary chartered bank.
3. A total price discount system. Retailers would deduct the discount from their prices and be reimbursed by the government for that amount, the government paying Alberta money.
4. Operation of a government propaganda bureau.
5. Extension of legislation affecting public and private debts.
6. Reduction of taxation by the issue of interest-free money to take the place.
7. A provincial wholesale set-up to be formed to handle the import and export trade of Alberta. In brief, this bureau would buy wheat for instance from Alberta farmers, paying Alberta money for it. The wheat would be sold outside the province for Canadian currency, which could be used in future trading.
8. Interest-free loans for (inside the province, either in Alberta money or the surplus of Canadian currency) piling up in the treasury.
9. Monthly dividends of five cents to every citizen of Alberta who has registered. Dividends would be paid in Alberta money and not by outside capital.
10. Alberta money would be made acceptable by law, forcing men and women to accept it for debts on penalty of the debts being liquidated by the amount offered.
11. Preservation of the natural resources of Alberta by setting aside an area which could be developed only through a New Year's financial system.

The three main principles—price discount, credit-free money and dividends—are the primary theories of Major C. H. Douglas. If the Premier and his cabinet approve the report, it will be discussed at the meeting of the cabinet on January 11. If approved, it will be introduced into law at the session of the legislature to open about the middle of February, the dispatch claims.

Horticultural Soc.
Meet Wednesday
January 13

A meeting of the Horticultural Society will be held in the community clubhouse, Town Hall, Grande Prairie, on Wednesday, January 13, commencing at 8 p.m.

A constitution will be adopted and other important matters dealt with. It is desirable that as many who are engaged in the horticulture and bring with them contributions of plants and seeds to be put in the collection.

The meeting will be open to anyone interested in flowers and will be a social gathering of a flower show each summer.

Hythe Jubilee Hall
Heart of Social,
Athletic Life

The Hythe Jubilee Hall, which was opened and started by the Hythe Athletic Association, is now open and ready to be the heart of the social and athletic life of the town and district.

The hall is situated on a corner of a lot and is a large building which has been built on a lot of 24 square feet.

THE NORTHERN TRIBUNE

AN INDEPENDENT WEEKLY

Published every Thursday at Grande Prairie, Alberta.

The Tribune's aim is to thoroughly "cover" the local news field with fairness to all sections of the community and to aid in the development of the Peace River Country. It is published with the aim of presenting a fair and balanced picture of the northern inland empire's many advantages as a home and a place to live. The paper's opinions are expressed only in its editorial columns.

Letters for publication are welcomed. A person's name may be used, but correspondence must also sign their proper names, not necessarily for publication, but as evidence of good faith. In publishing a communication, the Tribune does not imply agreement with opinions contained therein.

Legal and other advertising rates furnished on application.

Subscription Rates:

One Year, in British Empire... \$1.50
One Year in United States... \$2.00

Advertising and Circulation Manager

THURSDAY, JANUARY 7, 1937

GRANDE PRAIRIE NOW NEEDS WATER AND SEWER SYSTEM

That the next step in Grande Prairie's development is the installation of a water and sewer system must be clear to those who have studied its gradual advance and believe in its future.

The Tribune is not advocating that the project should be rushed ahead without the proper thought and planning. Cheap money, the payment spread over a long term of years, is essential. Whether the system should be constructed all at once or in instalments is another thing to be considered. An essential and important step was taken several years ago when the town was incorporated as a village of engineers. That report is in possession of the town.

This project is being dropped due to the setting in of the depression. Now that conditions have taken a marked turn for the better, it would seem that the time has arrived to again consider the whole question.

The annual ratepayers' meeting will be held on January 20. This would be a good time to advise the people of water and sewer system for Grande Prairie.

Along the Trail

J. B. YULE

I AGREE

I met a friend the day after New Year's. He was feeling a bit down. "Say, Scribbie, I want to make this statement to you and you may publish it if you like. You cannot have a merry Christmas and a happy New Year. They are too close together."

I made the following reply: "Brother, you are not a true thing in your life and I am in a position to know."

THIS HAPPENED AT POUCE COUPE IN 1917

While travelling Along the Trail on Wednesday I picked up the following story from a friend of mine who touched for its truth.

The land office at Pouce Coupe in 1917 was in charge of an old gentleman who was a bit crusty by disposition.

A group of young men, one of them a trapper, went into a huddle and decided to play a practical joke on the land agent.

The trapper, after being all fixed up to look like a homesteader, sallied forth and eventually arrived at the office, which was so small that one had to back out of it.

"I want to file on a quarter," he remarked to the agent.

The agent brought down the necessary form and asked the prescribed questions.

"What is your name?"

"The visitor gave his name."

"What is your religion?"

"The visitor answered that he was a Baptist."

"What is your occupation?"

"A safe blower, and if you have one around I'll blow it up for you right now."

The old gentleman, who was the soul of honor, looked at the visitor and then exclaimed: "You scoundrel! You ought to be arrested. Don't you know that you are in a British colony?"

After the agent was assured that he really had nothing to fear, he asked the visitor what he meant by the number of the quarter he wished to file on.

The explosion occurred at this point when the trapper asked the number of the Land Agent's quarter.

"Why—how—is that the number of my quarter?" roared the agent.

The trapper argued that an employee of the government had no right to file on land.

The old gentleman, trembling all over, opened the door and as the trapper was given time to get away, he received a kick on the seat of his pants.

What the visitor said on land returned to his pals, holding that part of his body which was about three inches apart from the rest of his long body, he remarked that he did not know whether the joke was on the Land Agent or himself.

THE WORLD OF WHEAT

By H. G. L. Strange

Director, "Cotton-Feeling Plan"

A Scotchman made perhaps the greatest gift ever sent to western Canada and received nothing in return.

This refers to the introduction into Canada and the West of the famous Red Fife wheat, which was not only of superlative quality but also one of the parents of Marquis, Red, Garnet, Thatcher and other good varieties.

It appears that in 1842 David Fife of the township of Ontario, Canada West (now Ontario), asked a friend in Glasgow, Scotland, to send him a little wheat. This Scotch friend took a small quantity from a cargo ship from Dundee. David Fife received this and sowed it but only three ears ripened. These were carefully preserved and sowed again and proved to be a wonderful wheat, which was soon given the name of Red Fife.

Red Fife was imported into Manitoba about 1870, and the first shipment of wheat from western Canada

made in 1870, consisted entirely of Red Fife. This established the high reputation of Canadian wheat on the world's markets.

David Fife made little or nothing out of his selection, and the name of his 3-4 bushel bushel of wheat, a valuable gift to us is not even known.

Following Factors Have Tended to Raise Prices: Persistent wet weather in the southern hemisphere has lowered the quantity and delays the movement of new wheat.

Continued unsettled European conditions.

Italian wheat production for 1936 reported as 227 million bushels compared with 284 million in 1935.

Following Factors Have Tended to Lower Prices: In 1936 a winter wheat crop larger in 1936 than in 1935.

C. S. Department of Agriculture reports a smaller world wheat supply than in 1935.

Reports of considerable surplus of Turkish wheat, barley and corn for export this season.

IN THE TRIBUNE'S MAIL BOX

WORD OF REPLY

On reading a letter recently relative to the Monkmann Pass Highway meeting at Hythe December 10, I feel a word of reply is in order.

In the first place, the gentleman appears to have the impression that the Highway Association is opposed to the proposed Turgeon project. Such is not the case.

The Highway Association is in favour of the government plan to extend highways into their mining fields or agricultural areas. It would be a great help to our part to contribute.

As a matter of fact we are greatly interested in this project, which promises much in the way of development in the area.

The project is being dropped due to the setting in of the depression. Now that conditions have taken a marked turn for the better, it would seem that the time has arrived to again consider the whole question.

The annual ratepayers' meeting will be held on January 20. This would be a good time to advise the people of water and sewer system for Grande Prairie.

The project is being dropped due to the setting in of the depression. Now that conditions have taken a marked turn for the better, it would seem that the time has arrived to again consider the whole question.
